

# Improving outcomes for your organisation

through innovative  
education, simulation  
and coaching

## Who we are

Mater Education is a leader in workforce education and simulation that builds effective multidisciplinary teams and delivers tangible business outcomes. For more than 100 years, Mater has delivered quality training for clinicians and healthcare professionals. Today, we provide contemporary interprofessional workforce training and development to professionals across a range of sectors including health, emergency services, aged and residential care, child care and the community.

We understand the challenges facing large organisations operating within changing environments and highly complex industries: optimising and scaling efficiency, mitigating risk,

reducing costs, facilitating workforce development, and increasing consumer satisfaction and staff engagement are fundamental to delivering successful, profitable results.

Proudly, we are the training and simulation provider, and research partner of choice for a number of government bodies, industry associations and service providers.

We pride ourselves on developing and delivering proven solutions to overcome difficult challenges and transform organisations' capability and outcomes.

## What we do

### We innovate

We apply our expertise in contemporary simulation, neuroscience and human factors to improve facilities, services and the built environment, orientate, empower and upskill staff, and find new and better ways of doing things.

### We contextualise

We'll work with you to understand your organisation's needs and develop a tailored solution to help:

- increase efficiency and profitability
- mitigate risk and reduce costs
- improve consumer satisfaction
- increase staff capability and engagement.

We customise tried and tested education methods, integrating learning and development pathways with performance and workforce planning requirements.

### We provide value

We have a highly accomplished industry-leading, contemporary team, with proven success in delivering improved outcomes and real impacts to businesses.

## Proven success

- Planned, designed and executed the world's first 24 hour simulation of a fully-operational greenfield private hospital as part of an award winning simulation program.
- Optimised floorplan layouts for both greenfield and brownfield hospital design to improve usability, reduce rework and inefficiencies, and mitigate associated contingency costs through collaboration with architects, building designers and project managers.
- Delivered an Australian-first in-utero surgery simulation, bringing together a large international surgical team to prepare safely and effectively for a high-stakes, high-risk procedure.
- Successfully implemented an enterprise-wide cultural transformation program to empower and engage staff to identify and mitigate risk within a large complex organisation operating from multiple sites and hierarchies, within a high-risk industry.
- Operating an award-winning, nationally accredited Registered Training Organisation to develop and deliver training that meets current and future workforce needs and delivers on the high expectations of industry partners and employers.
- Partnered with state and federal government bodies, private organisations and industry associations to provide contemporary clinical training and community care programs.
- Officially recognised as the only Australian Affiliate Partner of the internationally renowned Center for Medical Simulation (CMS) in Boston USA, and one of only five in the world.

## Our capabilities

- Bespoke education solutions
- System, process and people improvements through simulation
- Simulation faculty development
- Leadership and cultural transformation programs and coaching services
- Professional development for contemporary interprofessional practice
- Nationally accredited training programs

## Our delivery solutions

- Online learning accessible anytime, on any device
- Fully immersive, contemporary simulation programs and services, replicating real world environments
- Facilitated problem-based learning
- Engaging instructor led education

**If you're passionate  
about enhancing your  
organisational capability,  
we'd love to help.**
