PEAK BODY PRIVATE DAY HOSPITAL SECTOR

Day Hospitals Australia is recognised as the peak body for the day hospital sector representing more than 220 day hospitals (and some small overnight facilities <100 beds) nationally. As such our organisation has become a sought after subject-matter-expert at a State and Federal Government level on key topics impacting our sector.

Day Hospitals Australia is invited to participate on multiple Government Committees and Working Groups across the country providing us with the opportunity to impact and influence the direction of key activities within the industry. Often this requires member involvement which occurs in the form of survey/data collection as well as inviting members for expressions of interest for Committees and Working Groups focusing on critical activities ie COVID-19, AS/NZS 4187, PHI, state-based Regulations along with other activities at either a local or national level.

It is the strength of our membership that provides us with the unique opportunity to influence and challenge activities within the sector, to ensure it's long-term sustainability.
